Alignment Impact of Key Changes Since June 2024

IPSASB Pronouncements:

- N/A

IASB Pronouncements:

- July 2024 – [Annual Improvements to IFRS Accounting Standards—Volume 11](#)

¹ The term 'alignment' refers to the formal processes the IPSASB follows to assess the applicability of IFRS and/or GFS requirements when developing pronouncements that faithfully represent the economic substance of transactions in the public sector. Through these processes, the IPSASB aims to reduce unnecessary differences with these sources of guidance when they can also be applied in the public sector context. Outstanding presentation-related consequential amendments do not impact IFRS alignment categorization.

IFRS	Status	Comments	IAS/PS	Status	Comments
IFRS 2 <i>Share-based Payment</i>		Entities reporting on IPSAS basis generally do not give share-based payment compensation.	IAS 12 <i>Income Taxes</i>		Entities reporting on IPSAS basis generally do not pay income taxes.
IFRS 6 <i>Exploration for and Evaluation of Mineral Resources</i>		Draft of aligned IPSAS issued as ED 86 linked to <i>Natural Resources</i> project.	IAS 33 <i>Earnings per Share</i>		Public sector entities generally do not issue equity.
IFRS 14 <i>Regulatory Deferral Accounts</i>		Limited relevance in many jurisdictions. Monitoring development of ongoing IASB project Rate-regulated Activities.	IAS 34 <i>Interim Financial Reporting</i>		Limited interest given current priority to get governments onto accrual-based end year reporting.
IFRS 17 <i>Insurance Contracts</i>		Option to use IFRS 17 directly included in IPSAS 42, <i>Social Benefits</i> .	Practice Statement 2: <i>Making Materiality Judgements</i>		The IPSASB agreed to add this project as a pre-commitment to consider starting work in 2024 as other projects on the IPSASB's work program are completed and resources become available. IPSASB staff issued Questions and Answers on Materiality .
IFRS 19 <i>Subsidiaries without Public Accountability: Disclosures</i>		The IPSASB decided not to develop an IPSAS based on IFRS 19 consistent with the decision on Differential Reporting. See Differential Reporting: Feedback Statement .			
IFRS for SMEs		The IPSASB decided that developing the 'Navigating IPSAS' tool would better meet diverse public sector needs. See Differential Reporting: Feedback Statement .

<u>Property, Plant, and Equipment</u>				
IPSAS 45 (May 2023)	IAS 16 (Revised December 2003)		<ul style="list-style-type: none"> IPSAS 45 refers to both “economic benefits” and “service potential”, where appropriate, in the section on recognition of an item of property, plant, and equipment, while IAS 16 refers to “economic benefits”. IPSAS 45 at initial measurement requires that an item of property, plant, and equipment acquired through a non-exchange transaction be measured at its deemed cost (fair value). IAS 16 does not have such a requirement. The subsequent measurement models in IPSAS 45 are historical cost and current value models, while in IAS 16 the models are cost and revaluation. IPSAS 45 for subsequent measurement has two measurement bases in the current value model - current operational value and fair value. IAS 16 revaluation model has only one measurement basis - fair value. Under IPSAS 45 revaluation increases and decreases are offset within a class of assets basis, while in IAS 16 are offset on an asset basis. IPSAS 45 has disclosure requirements for unrecognized heritage assets, while IAS 16 does not have such a requirement. IPSAS 45 does not require the disclosure of the equivalent historical cost amounts, where an entity adopts the current value model and carries items of property, plant, and equipment at revalued amounts, while IAS 16 does. IPSAS 45 requires the disclosure of the sum of all revaluations, surpluses and deficits for individual items of property, plant, and equipment within that class. IAS 16 does not have such a disclosure requirement. 	<p>Active Alignment Project</p> <p>Non-significant IFRS Amendments not yet Considered</p> <p>Presentation of Financial Statements project:</p> <p>April 2024 – IFRS 18 <i>Presentation and Disclosure in Financial Statements</i> (Consequential amendments)</p>

<u>Revenue</u>				
<p>IPSAS 47 (May 2023)</p>	<p>IFRS 15 (January 2016)</p>		<ul style="list-style-type: none"> • IPSAS 47 applies to all revenue transactions in the public sector, which may arise from transactions with or without binding arrangements. IFRS 15 applies to a subset of binding arrangements, specifically contracts to deliver goods or services to customers. • IPSAS 47 explicitly requires an entity to determine whether the revenue arises from a transaction with or without a binding arrangement. IFRS 15 does not explicitly require an entity to determine whether the revenue arises from a contract. • IPSAS 47 uses the term “compliance obligation” as the unit of account for revenue recognition in a binding arrangement, which is a promise to either use resources internally for distinct goods or services, or to transfer distinct goods or services to another party (i.e., a purchaser or third-party beneficiary). IFRS 15 uses the term “performance obligation” as the unit of account for revenue recognition in a contract, which is a promise to transfer distinct goods or services to a customer. • The concept of compliance obligations in IPSAS 47 is broader than performance obligations in IFRS 15. As a result, IAS 20, <i>Accounting for Government Grants and Disclosure of Government Assistance</i> is not applicable for public sector organizations because IPSAS 47 includes principles to account for capital transfers and other transfers arising from binding arrangements. • IPSAS 47 requires an entity to disclose any transactions where it is compelled to satisfy an obligation, regardless of the counterparty’s ability or intention to pay and the probability of collection of consideration. IFRS 15 does not require this disclosure. • IPSAS 47 uses different terminology from IFRS 15. For example, IPSAS 47 uses the terms “compliance obligation”, “resource provider”, “stand-alone value”, and “economic substance”, while IFRS 15 uses the terms “performance obligation”, “customer”, “stand-alone selling price”, and “commercial substance”, respectively. 	<p>Active Alignment Project</p> <p>Non-significant IFRS Amendments not yet Considered</p> <p>Presentation of Financial Statements project:</p> <p>April 2024 – IFRS 18 <i>Presentation and Disclosure in Financial Statements</i> (Consequential amendments)</p>
