Project: Definition of an Operation and Recognition of Acquired Liabilities and Contingent Liabilities (Amendments to IPSAS 40)

Greyed out portions of the checklist refer to due process elements reviewed by the IPSASB's Public Interest Committee.

#	Due Process Requirement	Yes/No	Comments
A. Project Brief			
A1.	A proposal for the project (project brief) has been prepared, that highlights key issues the project seeks to address.	N/A - See Comment	In the IPSASB Strategy and Work Plan 2024-2028, maintaining alignment with International Financial Reporting Standards, and continuing to align with Government Finance Statistics where appropriate, are key IPSASB priorities.
A2.	The IPSASB has approved the project in a public meeting.	N/A	The Improvements Project is a ‘standing project’ to deal with non-substantive changes to the IPSAS Standards through minor amendments. It addresses improvements arising from: • The Conceptual Framework; • Government Finance Statistics; • IASB Amendments; and • Other general IPSAS Standards improvements. Because of the nature of the amendments, a project proposal is not developed for each improvements project.
A3.	The IPSASB CAG has been consulted on the project brief.	N/A	
B. Development of Proposed International Standard			
B1.	The IPSASB has considered whether to issue a consultation paper or undertake other outreach activities to solicit views on matters under consideration from constituents.	Yes	Because the project consists of non-substantive changes to IPSAS Standards through minor amendments, the IPSASB concluded that a CP stage is not warranted. This is consistent with previous improvements projects undertaken by the IPSASB.
B2.	If comments have been received through a consultation paper or other public forum, they have been considered in the same manner as comments received on an exposure draft.	N/A	See B1 above.
B3.	The IPSASB CAG has been consulted on significant issues during the development of the exposure draft.	N/A	Because of the nature of the amendments included in the Improvements Project, where significant technical issues are identified during the development of an Exposure Draft (ED), the issues are removed from the ED and considered in a separate project. Consequently, there are no significant issues on which to consult the IPSASB CAG.
