

BACKGROUND NOTE ON ACTION PLANS

The SMO Action Plan is intended to provide a summary of:

- The legal and regulatory environment for the profession;
- The status of adoption of international standards and best practices in the jurisdiction; and
- The level of a Member's or Associate's fulfillment of IFAC membership requirements.

IFAC [Statements of Membership Obligations](#) (SMOs) require IFAC Members and Associates to support the adoption¹ and implementation² of international standards and other pronouncements issued by independent standard-setting boards under the auspices of IFAC as well as by the International Accounting Standards Board (IASB); and to establish a quality assurance (QA) review and investigation and disciplinary (I&D) systems. The SMOs are recognized as the international benchmarks for credible and high-quality PAOs that are focused on and have the necessary expertise to serve the public interest and meet the market demands of their respective jurisdictions.

IFAC Members and Associates conduct a self-assessment against the requirements of SMOs and identify areas where, if any, improvements are needed. Members and Associates should develop an Action Plan to (a) demonstrate how they fulfill the requirements of the SMOs (revised in 2012), and (b) where some requirements are not yet addressed, to present plans towards their fulfillment. Action Plans are designed to be **ever-green** documents that take into consideration IFAC recommendations. Depending on the PAO's level of fulfillment (see *IFAC's Summary Assessment* – page 2), an Action Plan may not be necessary for each SMO section and instead the '*Attestation of Ongoing SMO Compliance*' is used to confirm their ongoing commitments. However, PAOs may wish and are welcome to utilize the Action Plan as a tool to demonstrate how they are using 'best endeavors' and going beyond their mandate with innovative approaches to fulfilling the SMOs and strengthening the national profession.

The specific details of each organization's actions will vary even where two PAOs are involved in the same SMO area. Each PAO operates in its own unique regulatory and standard-setting framework and has different operating, technical, and resource capacities. Moreover, in deciding when and how a particular SMO requirement is to be addressed, PAOs might have differing timeframes and objectives to achieve. Notwithstanding these inevitable differences, seeking the advice and assistance of other PAOs who have already faced and dealt with similar challenges can save significant time and resources. IFAC staff will offer assistance as needed.

Regular updates of the SMO Action Plans are required as part of the [IFAC Member Compliance Program](#).

Use of Information

Please refer to the [Disclaimer](#) published on the IFAC website.

ACTION PLAN

¹ *Adoption* is concerned with the decision that international standards are appropriate for use in specific national financial reporting environments and with the actions necessary to affect those decisions, including incorporation into national requirements or requiring the use of international standards through law. Adoption may include a process to review draft international standards, translation, public exposure of proposed standards, approval, incorporation into national requirements as necessary, and promulgation of final standards, and, where applicable, a convergence process to eliminate or minimize differences between international and national standards.

² *Implementation* may include a process to build awareness of the adopted standards, provide relevant education and training, develop, or disseminate implementation guidance and any other activities that promote proper understanding and use of the standards in practice.

Last Updated: July 2024
 Next Update:

IFAC’s Summary Assessment: IFAC staff will complete this section at the conclusion of each SMO Action Plan review and update process. PAOs are encouraged to take staff’s recommendation into consideration as part of future strategic planning conversations at the PAO.

For more information on [IFAC Member Compliance Program](#) and the legends used to describe the status of adoption of international standards, best practices, and fulfillment of SMO requirements, please refer to the Status of Adoption [methodology](#) and SMO Fulfillment [methodology](#).

Action Plan Subject: SMO 1 Quality Assurance
Action Plan Objective: Continue to maintain an effective quality assurance process as prescribed by SMO 1

<i>Background:</i>					
<p>Under the Australian Securities and Investments Commission Act 2001, the Australian Securities and Investments Commission (ASIC) is authorized to carry out quality assurance (QA) reviews for all audits of all entities that prepare financial reports under the Corporations Act 2001. The ASIC reports that audit firms are inspected on a continuous basis. One audit engagement file is inspected at each Big 4 firm each month. Mid-tier firm audit files may be reviewed every quarter. Small firms that only audit one or two small, listed companies, may be reviewed once every 12 years. Overall, the ASIC's review system appears to align with SMO 1 components.</p> <p>Additionally, there are three professional accountancy organizations (PAOs)—CPA Australia, Chartered Accountants Australia & New Zealand (CAANZ), and the Institute of Public Accountants (IPA)—that operate QA review systems for their respective members.</p> <p>CPA Australia implements a Best Practice Program to ensure that its members in public practice maintain high professional standards and is aligned with SMO 1.</p>

Action Plan Subject: SMO 3 International Standards and Other Pronouncements Issued by the IAASB
Action Plan Objective: Continue to use our best endeavors to adopt International Standards on Auditing (ISAs) and assist in the implementation of the adopted standards

Background:

Since its inception in 1986, the CPA Program has undergone many changes to ensure graduates are equipped to be leaders in finance, accounting and business. The CPA Program continues to be recognised as a leading professional program and receives strong endorsement from graduates. Detailed information about CPA Australia's professional education program and continuing professional development can be found in the relevant sections on the [CPA Australia website](#).

A CPA Australia member must meet the following requirements to use the CPA designation:

- an undergraduate degree accredited by CPA Australia or a degree approved by CPA Australia
- completion of the CPA Program
- completion of three years practical experience in finance, accounting or business
- continued professional development each year
- continued adherence to the code of professional conduct set by CPA Australia (APES 110 Code of Ethics for Professional Accountants)

To offer public accounting services, CPAs must also complete CPA Australia's Public Practice Program, which consists of a Practice Management distance learning subject, a Public Practice Program Intensive workshop, and must hold a Public Practice Certificate in accordance with [CPA Australia's By-Laws](#).

The simplest pathway to become a member of CPA Australia is to complete a program accredited by CPA Australia that is at least degree equivalent. To be eligible, candidates must complete subjects in accounting, finance and business areas to satisfy the minimum core competencies.

CPA Australia also provides options for graduates from other disciplines, and for candidates with gaps in their core competencies, to work towards CPA status through the completion of its Foundation exams. The CPA Australia Foundation exams are a series of six exams designed to test candidates on the core accounting knowledge required for entry into the CPA Program.

The CPA Program comprises six postgraduate-level distance learning subjects, together with a practical experience requirement comprising three years practical experience. Both requirements need to be completed to gain CPA status. The three-year Practical Experience Requirement provides a framework for developing and demonstrating practical workplace capabilities at a professional level, in accounting and finance.

Formal assessment processes are in place for all Foundation exams and the CPA Program subjects. Foundation exams are computer-based multiple choice exams to assess candidates against a series of learning objectives. The CPA Program formal assessments for each subject are three-hour open-book exams. To ensure accurate representation of candidate knowledge and skills demonstrated in exams:

- All candidate responses to multiple choice questions are scanned and marked electronically.

Action Plan Subject: SMO 3 International Standards and Other Pronouncements Issued by the IAASB
Action Plan Objective: Continue to use our best endeavors to adopt International Standards on Auditing (ISAs) and assist in the implementation of the adopted standards

- All results are reviewed to ensure there are no discrepancies or errors.
- Written responses are marked by independent experts. Scores are reviewed throughout the marking process to ensure accuracy and consistency in marking.
- Audit procedures ensure all the written responses are marked and approximately 20% of papers are re-marked by different markers to ensure consistency to ensure consistency and fairness.
- Professional experts moderate the examination papers through approval of the questions selected for inclusion and monitoring the marking procedures and pass standards.
- All of the subject study material is examinable. The CPA Program exams are either 100% Multiple choice or mixed format with a combination of Multiple Choice Questions and extended response questions. Each exam is designed to assess every learning outcome within the subject, at the varying level of difficulty. CPA Australia assigns a taxonomic level to each learning outcome within the subjects (a version of blooms taxonomy). Extended response questions predominantly assess the higher order skills of application, analysis and evaluation.

Upon renewing membership each year members are required to declare their ongoing compliance with the CPA Constitution, By Laws and minimum [CPD Requirements](#). Compulsory CPD applies to every Associate Member of CPA Australia (ASA), CPA and Fellow Certified Practising Accountant (FCPA) members, including retired members who provide Public Accounting services in any year (whether or not for reward). The minimum CPD Requirement is 120 hours of CPD every three years with at least 20 hours to be undertaken in each year. Members are required to achieve a minimum of 120 hours (at least 90 hours of formal development plus up to 30 hours of structured relevant reading over the three-year period). The reading component can contribute up to 10 hours of the 20 hour minimum requirement per annum).

CPA Australia's CPA Program ensures candidates develop the appropriate skills, knowledge and values required of a CPA through a combination of coherent learning experiences. Content is globally relevant, and is designed to meet the needs of the accounting profession in all markets and areas of the profession. The CPA Program continues to address the needs of employers and leads to a highly valued and globally relevant designation. CPA Australia maintains rigorous standards of competence in the design and assessment of all educational rigorous standards of competence in the design and assessment of all educational units, utilizing a team of technical experts together with world class external consultants to ensure the quality and relevance of its education program.

Action Plan Subject: SMO 3 International Standards and Other Pronouncements Issued by the IAASB
Action Plan Objective: Continue to use our best endeavors to adopt International Standards on Auditing (ISAs) and assist in the implementation of the adopted standards

Background:

The Auditing and Assurance Standards Board (AUASB) is an independent, statutory agency of the Australian Government, responsible for developing, issuing and maintaining auditing and assurance standards in Australia. The mission of the AUASB is to develop, in the public interest, high-quality auditing and assurance standards and related guidance, as a means to enhance the relevance, reliability and timeliness of information provided to users of auditing and assurance services. Sound public interest-oriented auditing and assurance standards are necessary to reinforce the credibility of the auditing and assurance processes for those who use financial and non-financial information. The AUASB standards are legally enforceable for audits or reviews of financial reports required under the *Corporations Act 2001*. The AUASB's role extends to liaison with other standards setters and participation in standard-setting initiatives.

Conformity with IAASB Standards

The AUASB has issued revised and redrafted standards in conformity with the IAASB standards, with amendments only where there is a 'compelling reason', such as to meet local legislative requirements. This includes issuing the new, revised and redrafted standards for enhanced auditor reporting with application consistent with the IAASB's standards, for reporting periods ending on or after 15 December 2016.

CPA Australia:

- (i) is represented at all AUASB meetings and provides comments to the AUASB when requested;
- (ii) participates in all roundtable consultations conducted by the AUASB on IAASB and AUASB exposure drafts and invitations to comment;
- (iii) makes submissions to the IAASB and AUASB on all consultations;
- (iv) hosts events to promote new and revised auditing and assurance standards, including in late 2015 an address by the Chairman of the IAASB in Melbourne on enhanced auditor reporting jointly with the AUASB; and
- (v) generates other communications to support awareness and understanding of new and revised auditing and assurance standards, such as, for enhanced auditor reporting, panel discussions at CPA Congress, production of a podcast "*Enhanced auditor reporting: Are you prepared?*" with speakers from the IAASB and AUASB and communicating developments such as invitations to comment, exposure drafts, submissions made and issue of final standards in CPA Australia's newsletters and website.

More details on CPA Australia's information and services relating to audit and assurance can be found on the CPA's website at [Professional Resources/Audit and Assurance](#).

Achieved Ongoing	Head of Policy Head of Policy	Achieved - the AUASB has undertaken to issue pronouncements that comply with IAASB pronouncements Accounting Policy team

Action Plan Subject: SMO 4 IESBA Code of Ethics for Professional Accountants
Action Plan Objective: Continue to use our best endeavors to ensure the IESBA Code of Ethics for Professional Accountants continues to be adopted and assist in its implementation

Background:

Professional conduct requirements for members of CPA Australia are promulgated in its Constitution. Members of CPA Australia are required to comply with the requirements of CPA Australia's Constitution, By-Laws, and applicable Professional Standards and are subject to the conditions regarding the regulation of their professional conduct.

APESB:

In February 2006, as an initiative of CPA Australia and The Institute of Chartered Accountants in Australia (ICAA), the Accounting Professional and Ethical Standards Board (APESB) was established as an independent body. CPA Australia, ICAA and the Institute of Public Accountants (IPA) are members of the APESB.

The primary role of the APESB is to develop and issue appropriate professional and ethical standards that apply to the membership of the three bodies. The secondary role of the APESB is to provide the opportunity or forum for the discussion and consideration of issues relating to professional standards for accountants.

The APESB follows a rigorous process for the development of professional and ethical standards. Based extensively on well documented processes adopted by international and national accounting standard setting bodies, the [*Due Process and Working Procedures for the Development and Review of APESB Pronouncements*](#) formalises the Board's approach to developing standards.

APES 110 – *Code of Ethics for Professional Accountants* can be found at the [APESB website](#). APES 110 incorporates the Code of Ethics for Professional Accountants (IESBA Code) and contains some additional Australian definitions and paragraphs.

CPA Australia:

- (i) attends APESB meeting and participates in all taskforces and roundtables;
- (ii) seeks member comment and makes submissions to the IESBA and APESB on all consultations;
- (iii) hosts events to promote the Code and other professional and ethical standards; and
- (iv) generates regular communications to support awareness and understanding of ethical issues and professional behaviour.

NOTE: References to the "Board" in this Action Plan for the subject of "SMO4 and IESBA Code of Ethics for Professional Accountants," refer to the "Accounting Professional and Ethical Standards Board (APESB)".

Action Plan Subject: SMO 5 International Public Sector Accounting Standards and Other Pronouncements Issued by the IPSASB
Action Plan Objective: Continue to use best endeavours to encourage alignment of the requirements of public sector financial reporting in Australia with IPSASs

Background:

CPA Australia has no responsibility for adopting and implementing public sector accounting standards. Financial reporting by the public sector in Australia is based on the Australian Accounting Standards (incorporating and complying with International Financial Reporting Standards (IFRS)). The Australian Accounting Standards Board (AASB) has a transaction neutrality policy, which means similar transactions and events should be accounted for in a similar manner by all types of entities. The AASB considers the specific needs of not-for-profit entities in the private and public sectors when adopting new and revised IFRSs for use in Australia. Where a not-for-profit private or public sector topic is substantive but not addressed within the IFRS framework, or it is not appropriate for it to be addressed in an existing Australian Accounting Standard, the AASB will create a stand-alone, topic-specific Standard. Where relevant, the AASB will seek consistency with the IASB's IFRSs and the IPSASB's IPSASs. The latest example of incorporating IPSAS in AAS can be observed in AASB 1059 *Service Concession Arrangements: Grantors* which is based on IPSAS 32 *Service Concession Arrangements: Grantor*.

CPA Australia has continued to encourage the AASB to expose, relevant to Australia, IPSASB Exposure Drafts (EDs) and provide support to IPSASB projects. In addition, CPA Australia continues to inform members of the activities of IPSASB. CPA Australia's communication, advocacy and member resources for the Public Sector can be found [here](#).

Maintaining Ongoing Processes

#	Start Date	Actions	Completion Date	Responsibility	Resource
52.	Ongoing	CPA Australia has continued to support the Australian Accounting Standards Board's activities in aligning IPSAS with Australian Accounting Standards (AAS) where appropriate. Activities include submissions to the AASB on IPSAS related consultations, participation in technical briefings for ANZ IPSASB members and other public sector forums. CPA Australia invites its membership to comment on the Exposure Drafts and share its views with CPA Australia as part of the process in developing CPA Australia's response. CPA Australia participates in the technical briefings of the Australian and New Zealand Board Members of IPSASB and where appropriate, provides opportunities for the Australian Board Member of the IPSASB to present at CPA Australia events. Action Plan Subject: SMO 6 Investigation and Discipline

Action Plan Objective: Continue to maintain a just and effective investigation and discipline process and regime as prescribed by SMO 6

Background:

Members of CPA Australia are required to comply with the requirements of CPA Australia’s Constitution, By-Laws, Code of Ethics for Professional Accountants and Applicable Regulations and are subject to the conditions regarding the regulation of their professional conduct. In addition there are several areas where their conduct is also subject to regulation by government agencies.

The Professional Conduct of members of CPA Australia is promulgated in its Constitution. The Board of CPA Australia adopted the Code of Ethics for Professional Accountants (APES 110) as produced by the Accounting Professional & Ethical Standards Board (APESB) as the Code of Professional Conduct for its members. (The Accounting Professional & Ethical Standards Board was established as an independent body in February 2006, as an initiative of CPA Australia and the Institute of Chartered Accountants in Australia (ICAA). CPA Australia, ICAA and the Institute of Public Accountants (IPA) are all members of the APESB.)

The primary role of the APESB is to develop and issue appropriate professional and ethical standards that apply to the membership of the three bodies. The secondary role of the APESB is to provide the opportunity or forum for the discussion and consideration of issues relating to professional standards for accountants. The APESB follows a rigorous process for the development of professional and ethical standards. Based extensively on well documented processes adopted by international and national accounting standard setting bodies, the *Due Process and Working Procedures for the Development and Review of APESB Pronouncements* formalises the Board's approach to developing standards.

Details on CPA Australia’s information and services relating to Member Discipline and Complaints can be found on the [CPA Australia's website](#).

The revised SMO 6 has been reviewed and it was concluded that CPA Australia is already addressing the requirements of the revised SMO.

Maintaining Ongoing Processes

Main Requirements of SMO 6 - Comparison between CPA Australia and Regulator

Requirements	CPA Australia	ASIC	Comments
<p>Scope of the System</p> <p>1. A system of investigation, discipline and appeals exists for the accountancy profession. The system is operational.</p>	Yes (Y)	Yes (Y)	<p>ASIC - The ASIC is responsible for the surveillance, investigation and enforcement of registered company auditors (RCAs). The ASIC conducts regular audit inspections and surveillances and if auditor's conduct is found to be deficient, the ASIC may impose conditions on an RCA's registration or other sanction or may refer the matter to the Companies Auditors Disciplinary Board (CADB).</p> <p>CPA Australia upon becoming aware of a possible breach, investigates and if necessary imposes penalties upon members in accordance with the processes and procedures outlined in its Constitution and By-Laws.</p>
<p>2. Information about the types of misconduct which may bring about investigative actions is publicly available.</p>	Y	Y	Information is publicly available on CPA Australia's website.
<p>Initiation of Proceedings</p> <p>3. Both a "complaints-based" and an "information-based" approach are adopted.</p>	Y	Y	CPA Australia accepts complaints from both internal and external parties, in addition the GMPC has the authority to initiate a complaint against a member on the basis of publicly available information.
<p>4. Link with the results of QA reviews has been established.</p>	Y	Y	CPA Australia's QA unit refers matters of concern to the professional conduct unit for investigation.
<p>Investigative Process</p> <p>5. A committee or similar body exists for performing investigations.</p>	Y	Y	CPA Australia staff investigate complaints about members.
<p>6. Members of a committee are independent of the subject of the investigation and other related parties.</p>	Y		If a conflict of interest or an issue of independence arises, the CPA Australia Professional Conduct Officer (PCO) in question is removed from the investigation of the complaint and the matter is referred to another PCO.

Action Plan Subject: SMO 6 Investigation and Discipline

Action Plan Objective: Continue to maintain a just and effective investigation and discipline process and regime as prescribed by SMO 6

<p>Disciplinary Process</p> <p>7. A separate disciplinary committee/entity exists to make disciplinary decisions on referrals from the investigation committee.</p>	<p>Y</p>	<p>Y</p>	<p>The disciplinary tribunal is independent of CPA Australia.</p>
<p>8. Members of the committee/entity include professional accountants as well as non-accountants.</p>	<p>Y</p>		<p>CPA Australia's disciplinary tribunal panel is made up of at least 25 percent non-accountants.</p>
<p>9. The tribunal exhibits independence of the subject of the investigation and other related parties.</p>	<p>Y</p>		<p>CPA Australia tribunal members who are conflicted, are removed from any proceeding which may raise an issue of independence.</p>
<p>Sanctions</p> <p>10. The disciplinary system allows imposing an extensive range of penalties. It is particularly important to include (a) loss of professional designation; (b) restriction and removal of practicing rights; and (c) exclusion from membership.</p>	<p>Y</p>	<p>Y</p>	<p>ASIC — If we find the auditor's conduct to be deficient, we may:</p> <ul style="list-style-type: none"> • impose or vary conditions on the auditor's registration • agree to an enforceable undertaking, or • refer the matter to the Companies Auditors and Liquidators Disciplinary Board. <p>CPA Australia may impose forfeiture of membership, the obligation to undertake further training amongst other penalties. It does not have the statutory authority to remove a member's licence to practice.</p>
<p>Rights of Representation and Appeal</p> <p>11. A third appeals body exists which is separate from both the disciplinary committee and investigative committee.</p>	<p>Y</p>	<p>Partially (P)</p>	<p>The respondent in CADB matters may appeal a decision. Tribunal panel members that have sat on a particular disciplinary matter for CPA Australia, are excluded from sitting on the appeals tribunal for the same matter.</p>
<p>Administrative Processes</p> <p>12. Timeframe targets for disposal of all cases are set.</p>	<p>P</p>		<p>CPA Australia has recommended timeframe targets, however depending on the individual circumstances of the matter, the disciplinary process may exceed targets.</p>
<p>13. Tracking mechanisms to monitor progress in investigation and discipline and related procedures are established.</p>	<p>Y</p>		<p>CPA Australia's CRM database provides for the monitoring and tracking of complaints.</p>

Action Plan Subject: SMO 6 Investigation and Discipline

Action Plan Objective: Continue to maintain a just and effective investigation and discipline process and regime as prescribed by SMO 6

14. Records of investigations and disciplinary processes are established.	Y	P	ASIC publishes outcomes on its website and forward them to subscribers. The CADB publishes its decisions online and in the Australia Business Gazette CPA Australia publishes its disciplinary outcomes on its website.
Public Interest Considerations 15. Activities are supported to ensure that the public is aware that an investigative and disciplinary system exists in the jurisdiction.			CPA Australia maintains a 'Member conduct and discipline' website page with information relating to complaints and discipline.
16. A process for the independent review of complaints on which there was no follow-up established.	Y		The PCOP can undertake an independent review of a complaint which was closed by CPA Australia's GMPC.
17. The results of the investigative and disciplinary proceedings are made available to the public.	Y		The outcomes of all disciplinary tribunals hearings are published CPA Australia's website :
Liaison with Outside Bodies 18. There is an appropriate process for liaison with outside bodies on possible involvement in serious crimes and offences.	P	N/A	CPA Australia does not have in place a formal process for sharing information with statutory bodies. Should CPA Australia become aware of an alleged/potential serious offence through an external complainant, the complainant is advised to report the matter to the police and/or any other appropriate statutory body.
Regular Review of Implementation and Effectiveness 19. Regular review of implementation and effectiveness of the system are performed and corrective actions are implemented.	P		CPA Australia reviews its investigations and disciplinary processes for areas of improvement, which usually results in annual changes to the By-Laws to reflect amendments/improvements.

Background:

CPA Australia has no responsibility in Australia for adopting and implementing the International Financial Reporting Standards (IFRS) of the International Accounting Standards Board (IASB). From 1 January 2005 IFRS has been incorporated into Australian Accounting Standards (AAS). AAS are referred to in the Corporations Act 2001 and therefore have legal effect for all companies reporting in accordance with Corporations Act 2001. AAS require a compliance statement to IFRS within financial statements where relevant.

The Australian Accounting Standards Board (AASB) is an Australian Government agency established under the Australian Securities and Investments Commission Act 2001. Under that Act, the statutory functions of the AASB are:

- to develop a conceptual framework for the purpose of evaluating proposed standards;
- to make accounting standards under section 334 of the Corporations Act 2001;
- to formulate accounting standards for other purposes;
- to participate in and contribute to the development of a single set of accounting standards for worldwide use;
- and to advance and promote the main objects of Part 12 of the ASIC Act, which include reducing the cost of capital, enabling Australian entities to compete effectively overseas and maintaining investor confidence in the Australian economy.

More details on the Australian Accounting Standards Board can be found on its [website](#).

CPA Australia's communication, advocacy and member resources for financial reporting can be found [here](#).
