B.2. Accounting Firms and Other PAPPs

General

1. Do you believe that the level of fees charged by an audit firm gives rise to ethics and/or independence issues? Please explain your response.

Higher fees give to an audit firm the opportunity to improve its professionalism by recruiting professionals with higher quality, thus with higher remuneration. On the other hand higher fees may have reverse affects on independence of an audit firm as a source of its revenue.

2. What policies and procedures does your firm have in place to deal with threats that might be created by the level of fees charged? For example, does your firm monitor client revenues to identify possible fee-related ethical issues such as a self-interest threat created by over-reliance on fees (e.g., by office, individual engagement partners or other method)? If so, please explain.

For new engagements, other than our firm criteria in calculation our quoted fees, factors such as volume of work to be done, our professional responsibility & audit risks are taken into consideration. we consider previous auditor's fee to be in - line by comparison with our calculation of fee considering the surrounding business conditions as well as rate structure promulgated by the IACPA. No, client revenue dose not affect our fee, but we consider the level of revenue of a prospective client as an element of work to be done.

3. Do you believe that the IESBA Code establishes sufficient and appropriate provisions to help professional accountants and firms deal with threats to compliance with the fundamental principles and independence that might be created by the level of fees charged? Do you believe that the IESBA Code appropriately deals with the issues you identified in Q1?

Yes. it establishes fairly sufficient & appropriate provisions, but the issue is adherence to those provisions by professional accountants and firms, as well as monitoring of such adherence by the regulatory body/bodies namely the IACPA.

4. Do you believe that there are aspects of your firm's policies and procedures described in Q2 above that are more stringent than the provisions in the IESBA Code? If so, please explain why.

No, in our firm regardless of monitoring by regulatory body, we respect and consider such provisions in our ongoing practice as part of our professionalism.

5. What do you believe should be done to respond appropriately to concerns about the level of fees charged by audit firms? What should be IESBA's role? Who else should play a role and what should that role be?

we believe adherence to ethics prescribed by IESBA, which has been translated into Persian by the IACPA would be sufficient, if it is followed by firms. Also, IACPA has a rate structure which, should be regarded in Iranian firms' engagement letters. This promulgated rate structure by the IACPA, has been approved by Iranian Secretary of Finance & Economic Affairs.

Non-Audit Services

6. As a matter of policy, does your firm provide non-audit services to audit and assurance clients?
- If yes, are there certain types of services beyond those prohibited by the IESBA Code that your firm does not provide? Please provide some examples.
 - If no, why?

Yes, sometimes we receive request for rendering services such as compilation & audit simultaneously, but due to prohibition by ethical standards we do not accept such requests.

7. In your opinion, would a high ratio of non-audit fees to audit fees charged to **an audit or assurance client** create threats to an auditor's compliance with (Please select one or more answers):

- ☐ Professional competence and due care as defined by the IESBA Code?
- ☐ The other fundamental principles that are included in the IESBA Code – integrity, objectivity, professional behavior and confidentiality?
- ☒ Independence as defined by the IESBA Code?
- ☐ None of the above.
