#### 5. Section B

4. 1. What level of importance do you believe the IESBA should place on dedicating strategic focus to responding through standard-setting action to the developments in sustainability reporting and assurance in its next strategy period (2024-2027)? Please be as specific as possible and explain your reasoning.

Highly important. Choices around capital allocation are increasingly made on sustainability factors. The lack of clarity and standardization in reporting makes this very difficult. Example - I work for a NYSE listed company which has 5 different sustainability ratings agencies rating the company. This is ridiculous. How can 5 individual agencies have a different view on the same company, when each is using different proprietary criteria, and yet be considered credible in using relevant and ethical measurement standards?

5. 2. Do you believe the IESBA should explore the concept of expanding the scope of the Code to cover assurance service providers other than PAPPs? What preconditions would need to be in place and what potential challenges or drawbacks do you foresee if the Code's provisions were scoped to the nature of the assurance services provided as opposed to who is providing the assurance services?

Yes.

6. 3. Are there other matters the IESBA should consider with regards to this strategic focus area?

#### 7. Section B: Strategic Direction and Priorities

7. 4. Beyond sustainability reporting which is covered under the first strategic focus area above, do you believe the IESBA should dedicate strategic focus on further raising the bar of ethical behavior for PAIBs in its next strategy period (2024-2027)? Please be as specific as possible and explain your reasoning.

Yes. I think this should be assumed.

#### 9. Section B: Strategic Direction and Priorities

8. 5. Do you believe the IESBA should continue to dedicate strategic focus on strengthening the IIS for audit engagements in its next strategy period (2024-2027)? If so, what specific developments or issues do you believe the IESBA should focus on beyond the matters outlined above and in Section C? Please be as specific as possible and explain your reasoning.

#### 11. Section B: Strategic Direction and Priorities

9. 6. Do you believe the IESBA should devote strategic focus on promoting timely adoption and effective implementation of the Code in its next strategy period (2024-2027)? Please be as specific as possible and explain your reasoning.

Yes.

10. 7. Are there specific operability issues or concerns with respect to the Code you believe the IESBA should be made aware of?

No.

11. 8. Are there key environmental trends or developments, beyond those already noted above, you believe the IESBA should focus on in its next strategy period (2024-2027)? Please be as specific as possible and explain your reasoning.

No.
